

```
int main() {
    int k = 0, x;
    while ((x = getchar()) != '\n') {
        if (x >= 'A' && x <= 'Z') {
            k += 1;
            printf("%d\n", k);
        }
        if (k >= 2) {
            printf("Yes\n");
            break;
        }
        if (x == ' ') {
            k = 0;
        }
    }
    if (k < 2) {
        printf("No\n");
    }
}
```
